

# Pioneer 130

The 130 litre Pioneer Bin can either be used as an on-street litter bin or as mixed recycling bin with the addition of WRAP compliant colour-coded recycling inserts. The propeller shaped insert enables the collection of a wide variety of recyclable waste streams whilst the honeycomb double skin structure produces an exceptionally strong bin.

The Pioneer is ideal for dry mixed recyclables

## VITAL STATISTICS

Model	Pioneer
Capacity	130 litres
Liner	Steel (included)
Dimensions	680W 1170H 570D (mm)
Key Lock	Optional

- Generous 130 litre capacity requiring less frequent emptying
- Double skin construction gives exceptional strength
- A dimpled exterior to increase resistance to fly posting
- Concealed hinge
- Moulded drainage channels
- Litter (without insert) aperture suitable to accept 12" pizza box
- Front opening design which allows the liner to be removed without lifting it out of bin
- Moulded through ground fixing holes for bolt down option
- Suitable for internal concrete ballast fitted by customers at time of installation
- Panel for personalised graphic or company logo (248mm x 200mm)
- Slam locking door system for added security and ease of emptying

Front opening design makes emptying a full bin a much easier task!

Double apertures providing easy 'walk by' access

Black base made from 100% recycled plastic\*
