

VARIO Shelters

VARIO is a versatile shelter – the different VARIO versions constitute a good choice for bus shelter, bicycle shelter, or weather shelter.

Bicycle shelters VARIO-1 and VARIO-2

A Vario shelter is an excellent choice for bicycle parking purposes. The shelter can be equipped with bicycle racks of different type, implemented with one-sided or two-side design, and the shelter width can be selected accordingly. Vario shelters can be equipped with a bench, litter bin, and ashtray. The shelter modules can be positioned side

by side to form a continuous run of shelters.

VARIO-T Weather shelter

The Vario-T can be used as a weather shelter and a refuge for smokers. The walls are made of tempered glass. The shelter can be equipped with a bench, litter bin, and ashtray. Gutters lead the water away from the passage.

VARIO-LP Bus Shelter

The Vario Bus Shelter is a convenient roadside and station shelter. The bus shelter can be combined with Vario-1 bicycle shelter to form a park-and-ride shelter. The walls are made of tempered glass. The shelter can be equipped with a bench and a litter bin.

The shelter can be equipped with a litter bin and an ashtray.

Aluminium eaves and gutter at roof element edge.

The Treo bicycle rack can be equipped for example with a lean-on bench.

VARIO Bicycle Shelters

Vario-1 Shelter

The basic module accommodates 8 bicycles.
Dimensions: 2,500 x 4,000mm
Height: 2,350/2,600mm

Vario-1 shelter with Treo bicycle rack

Vario-2 Shelter

The basic module accommodates 16 bicycles.
Dimensions: 3,600 x 4,000mm
Height: 2,200/2,600mm

The shelter modules can be positioned side by side to form a continuous run of shelters.

Vario-2 shelter and double-sided Treo bicycle rack.

Vario-T Weather Shelter

Tempered glass walls.
Dimensions 2,500 x 2,000mm
Height: 2,350/2,600mm
