**Consult finishes for marine environments.

Installation and maintenance

Anchored using four bolts, 10 cm below the ground. For temperatures $\leq 0^{\circ}\text{C}$, we recommend turning off the water and draining the circuit to avoid freezing and breakage. Delivered unassembled and packaged in two parts: monolith with spout and grates with frame according to needs. Instructions and anchor bolts are included.

No functional maintenance is required, others than standard interior and push-button cleaning.
